

Shower Filter Installation Manual

1. Please remove shower head from the shower.
2. The “in” part of the shower filter attaches to the shower water line coming out from the wall.

3. Screw the shower filter on.

4. Attach the adapter rubber seal side to the “out” from the shower filter.

5. Turn the water on and flush for 30 seconds hot or cold.

6. Attach shower head onto the shower filter silver adapter.
